*The TeamWorks competition will also be offered this year at the SLSC. To compete in the Team Works Competition your school must have the following programs: General Building Construction, Electricity, and Masonry. Each team will be comprised of four members. Two members will come from the General Building Construction, one member will come from the Electricity, and one member from Masonry. Each student competing must have proof of OSHA certification prior to competition. OSHA certification may be obtained through Career Safe or a through a 10-30 hour OSHA training course.
